Datasheet "04900-8710"

DIGILOCK Curve electronic RFID lock, Evolo PLUS series

Produktgruppe: Castle
lock:
Lock operating mode:
key number: Bolt
Main closing function:
Modus:
RFID Technologie:
series: Evolo PLUS

Manufacturer information

An electronic RFID lock is a keyless access system that makes using cabinets and cases particularly convenient. Identification is carried out simply via an RFID medium, such as a card or transponder. Depending on the application, the lock can be programmed for rotating users or for fixed, personalised use. Additional functions such as a low-battery warning, emergency opening and time-controlled access support easy day-to-day management.

DIGILOCK Curve electronic RFID lock (MIFARE® Classic/Ultralight/DESFire EV1-3/Plus®S, LEGIC advant, ICLASS, SEOS, FeliCa) for keyless identification and access, programmable for rotating (standard) or personalised locker use, robust metal housing, motorised bolt drive, dust- and splash-proof to protection class IP55, integrated emergency opening function via manager key, colour: black powder-coated with RFID reader made of plastic in the colour black

+ Multi-user (standard) and private modes
+ Mode change via function key
+ Motorised bolt drive for convenient opening and closing
+ Housing made of sturdy Zamak with black powder coating
+ Black plastic RFID reader
+ IP55 protection against dust and splash water
+ Integrated RTC for customisable locking duration
+ Includes high-quality batteries (4x Duracell AA)
+ Long battery life of approx. 3 to 4 years
+ Visual and audible low-battery warning
+ Option for mechanical emergency opening using a manager key
+ Basic management (standard) with programming and manager keys
+ Optional advanced management with tablet, data key and manager key – upgrade possible at any time

The color concept

With our new color concept, we are not only presenting current and attractive colors for every environment, but have also greatly simplified the color surcharge system. You won't need it very often anyway, because we now offer 144 colors and color combinations at no extra charge.

Locking systems

One for everything? That was once the case. Today's locking system solutions from C+P are as diverse as the applications for which they are designed. We would be happy to advise you on the options available for your specific project.

Accessories

Want to get the most out of your locker or steel cabinet for your practice? C + P offers a wide range of additional equipment.

Trust is good, but ...

control is better. At least when it comes to quality assurance. That is precisely why both our manufacturing processes and the C+P products themselves are subject to extremely demanding quality management, which is essentially based on two column bases: our in-house test laboratory on the one hand and, of course, regular external inspections and controls on the other.
