C+P assembled box lockers, Resisto, 9 cases, 1950x1148x540mm, 7035/5012

Assembled box locker Resisto, as extra-large cabinets, 3 compartments with 2 + 5 + 2 cases, special doors made of 1.5 mm steel, with curvature to the front, absolutely stable and vandal-proof, door suspension throughout with robust swivel rod hinge, hinged on the right, with ventilation hole pattern in the rear panel and 20 mm wall spacer, on 100 mm high base with 30 mm height adjustment, inside per large case a stable changing room rails made of oval profile with 3 twist-proof sliding hooks, 9 Cylinder locks with 2 keys, locking circuit up to 6000 different key numbers, Dimensions (H x W x D): 1950 x 1148 x 540 mm, Colour: RAL 7035 Light grey, Doors: RAL 5012 Light blue

Product advantages:

- + Practical assembled box lockers for locking away personal items, for more order and security
- + Ventilation openings in the rear panel for good ventilation of the cabinet interior
- + Doors mounted on robust espagnolette hinges for heavy-duty use
- + Doors with forward curvature for maximum stability and resistance, even against kicks
- + Door opening limiter to protect the door from overstretching and from overlapping with the usable space of the neighboring cabinet
- + Closed base for easy floor cleaning and a clean look
- + Level adjustment for easy compensation of uneven floors

The color concept

With our new color concept, we are not only presenting current and attractive colors for every environment, but have also greatly simplified the color surcharge system. You won't need it very often anyway, because we now offer 144 colors and color combinations at no extra charge.

Locking systems

One for everything? That was once the case. Today's locking system solutions from C+P are as diverse as the applications for which they are designed. We would be happy to advise you on the options available for your specific project.

Accessories

Want to get the most out of your locker or steel cabinet for your practice? C + P offers a wide range of additional equipment.

Trust is good, but ...

control is better. At least when it comes to quality assurance. That is precisely why both our manufacturing processes and the C+P products themselves are subject to extremely demanding quality management, which is essentially based on two column bases: our in-house test laboratory on the one hand and, of course, regular external inspections and controls on the other.

Many of our products are GS-tested by TÜV Thüringen. We will be happy to send you copies of the relevant certificates on request.
